

Alicia Hamm

Gran Canaria 2016

20.–30. 4. 2016

**Intensive experience workshop in Gran Canaria Island
Medicine wheel, Lakota Dream School and Work with Elements**

Alicia Hamm is an Indian shaman from Argentina who works with traditional rituals of her teachers from Hopi and Lakota tribes. She works with Lakota Medicine wheel (the way of four directions and four parts of our soul – inner child, woman, man and soul). She also works with Lakota Dream School and the interpretation of dreams.

Alicia Hamm

Gran Canaria 2016

Alicia says: „The Island Gran Canaria has the power of obsidian, as there is much of this stone here, it is the black mirror, so you recognize the hidden parts of your consciousness, the mask falls and you see behind. If you are working with yourself in the Medicine Wheel with this influence, you can really centre yourself and ground yourself.“

Medicine Wheel is a holy circle that connects the teaching of Mother Earth and Great Spirit, the way of four sacred directions and four parts of our soul – inner child, woman, man and soul. Everything in the Universe is moving in circles and that creates the harmony.

You will be in your Child a whole day, working with Mami Water, which is the Element of the Child. You will be with the Woman and go to the mountains to work with Mother Earth where you can experience her power. You will work with the Man and clear your mind working with the Air, looking to the horizon. The Sun is so strong, so much Light to work with your Soul in her Element.

We will work with dreams throughout the time following the instructions of the Dream School. We will spend one hour per day with the interpretation of dreams. There will be three days dedicated to private consultations. On the 22nd of April we will make the Full Moon Ceremony entering the Ocean in her light beam.

In Canary Island we will spend 5 days of intensive time where to work with the Elements is to really immerse yourself in them, with the bright sun in the Canary Island, in the salt water and in the mountains - breathing the purest air of Europe while you work with the parts of your Human Wheel.
